III. RECRUITMENT INITIATIVES

	TYPE OF RECRUITMENT INITIATIVE (MENU SELECTION)	BRIEF DESCRIPTION OF ACTIVITY
1	Station Intern Program	Continued the two intern programs that were started in 2016, one for sales interns and one for programming interns. The large majority of intern applications resulted from our Job Fairs at Texas Tech University. Additionally, 11 applications for intern positions were received through employee referrals or via unsolicited mail. During 2017, we employed three sales interns for a period of approximately 3 months each and one programming intern for a period of approximately 3 months. Three interns were in the sales intern program and one was a programming intern total.
2	Participation in Events/Programs Sponsored by Educational Institutions	Continued the initiative to partner with educators at Texas Tech University to teach appropriate classes within the college throughout 2017 and the beginning of 2018. As a part of that education tactic, we are able to alert students of opportunities (both full-time and intern positions) that are available at the stations. Teaching assignments are not on a predetermined schedule – working to make them a recurring event each semester.
3	Participation in job fairs by station personnel.	October 10, 2017 – <i>Texas Tech University College of Media and Communications Career fair</i> . Held annually, this Career Fair is for students seeking jobs and internships in advertising, journalism, public relations, communications, electronic media and other related fields. The stations set up a booth and manned it the entire day. They spoke to people about various radio careers and the availability of such positions. Applications and resumes were collected from all that were interested.
4	Participation in job fairs by station personnel.	September 6, 2017 – <i>Lubbock Christian University</i> . Held annually, this Career Fair is for students seeking jobs in any field. The stations set up a booth and manned it the entire day to enlist individuals to explore the possibility of careers in media and broadcasting. They spoke to people about various radio careers and the availability of such positions. Applications and resumes were collected from all that were interested.
